Rosy tinted blossoms shade to a pearly white.

Simply place the bulb in a dish, bowl, saucer or on the table or window sill and watch its beauty unfold.

Requires a Little Sunlight. No Water. No Soil. No Care. No Vase. Surprising and Beautiful.

When the blooming has ceased, the bulb may be potted or planted in the open garden or lawn, where the following spring they will develop a beautiful, deep-colored foliage.

Remove from bed about July first, dry the bulb in darkness for a few weeks and use for indoor decoration, as at first.

Price, large bulbs, postage paid, 30c each; 6 for \$1.60; 12 for \$3.00.

HARDY LILIES FOR FALL PLANTING

Lily Candidum

Also Known as Madonna or Annunciation Lily

Imported by us direct from France

The old-fashioned pure white garden Lily. One of the hardiest flowers, snow-white, with yellow stamens and sweetest fragrance. It must be planted in the early autumn to succeed well, as it makes its leaf growth at once after planting, and prepares itself for early flowering. As spotlessly pure as the Easter, but with broad, widely opened flowers. Tall and stately growing and a sure bloomer. Fragrant. Large bulbs, 30 cents each; 4 for \$1.00; 12 for \$2.50.

HARDY REGAL OR ROYAL LILY

"One of the most beautiful of all known lilies. Highly recommended for general culture both for the open ground and for pots."

The outside of the flower is white, very faintly tinged with yellow at the base of the trumpet, and with pink at the point. The midribs are purple. Mature bulbs produce plants 3 to 4 feet high, bearing 3 to 10 flowers. Price, 40 cents each; 3 for \$1.10; 6 for \$2.00.

CROCUS ZONATUS (Lavender Blue)

This novelty is now offered by us for the first time.

Pot them, or not, as soon as received and they will bloom for you before long. Will bloom in fall from dry bulb.

Do not confuse the Crocus Zonatus with the Colchicum, as bulb and bloom are smaller. Should be planted in garden after blooming—Try some of this sterling novelty and be pleased. Price, 6 for 35c; 12 for 60c; 25 for \$1.00.

THERE IS NO CLASS OF FLOWERS so much prized as those which are produced from bulbs. Closely following the disappearance of snow and long before ordinary outdoor flowers are in bloom, we may have, in their perfection, the hardy Crocus; then the fragrant and stately Hyacinths; a little later the varied and brilliant Tulips. These give an air of distinction and refinement to any lawn or garden, affording much pleasure to all who pass by.

WHEN TO PLANT We would particularly emphasize the fact that fall and not spring is the time to plant all kinds of spring flowering bulbs. The bulbs should be planted as soon after September as possible, so that the roots will make good growth before the cold weather sets in. They may be set out from then until the ground becomes frozen. They require a moderately rich soil. When the ground freezes hard, the bed should be covered with three or four inches of leaves or dry litter. Too early and heavy covering starts the tops prematurely. In the spring the covering should be carefully removed.

Our "Rainbow" Collection of Hyacinths

An increasing number of this collection is sold each year, which is proof of its popularity.

For Bedding Out in the Fall, or for House Culture in Pots and Boxes. Superb Mixture and Color.

NO TWO ALIKE

In this collection of twenty bulbs we have chosen one each of the most distinct colors of this beautiful flower; this will give a grand effect when massed in a bed, and will show all the colors in striking contrast. The collection will consist of ten Single and ten Double Hyacinths, in the following named order:

- | | |

We Will Send the "RAINBOW" COLLECTION for \$3.00, Mail or Express Prepaid.

Each Bulb is Wrapped and Labeled, Showing Color. You will not be disappointed in this Collection.

THESE are selected un-named sorts, and are chiefly used for outdoor planting, but can also be used for pot culture, although we advise using the named varieties for house culture. These are just about what is wanted for massing in borders or display beds. These bulbs are the product of one of the best growers in Holland, and are good size, solid and will produce splendid flowers.

SPECIAL NOTICE

By Order of the United States Horticultural Board, the importation of Narcissus bulbs, in all varieties, is now prohibited—and as but a limited number are grown in this country and at very high prices, we are omitting them from this catalog.

We are making especially low prices on other bulbs to induce the planting of them in place of the Narcissus. Hyacinths, Tulips and other Fall bulbs will arrive from Europe in September.

NAMED DUTCH HYACINTHS

LARGE, PERFECT BULBS OF FINEST QUALITY

We have endeavored to get the very best in quality from best Holland growers. We import direct from the best known growers and customers may be assured that no better bulbs are to be had for the price asked.

For winter and early spring flowering nothing surpasses the Hyacinth. It is sure to bloom and give satisfaction in the house during the winter or in the garden in early spring. Its large spikes resemble nothing else in cultivation. Rather than offer a long, confusing list of varieties, we have carefully selected a list of Singles and Doubles, embracing all the shades of this beautiful flower, each one being the largest, strongest and best of its color. Plant Hyacinth bulbs 4 inches deep.

Extra Fine Single Dutch Hyacinths

This list contains such only as are real beauties, and a few varieties, which are not entirely new, but to which we wish to draw your special attention. Price, 20c each, six for \$1.00, postpaid.

ARENTE ARENSEN

Snow-white. The spike is unusually well filled and has a perfect round shape. The broad, wide open petals are of intense whiteness and make the flower look unusually bright and pretty.

BUFF BEAUTY

Buff orange-yellow, long narrow truss on strong stem. A very peculiar color.

GENERAL DE WET

Light pink. Splendid for bedding as well as for forcing. The medium sized bells are of a lively light pink color with a lighter center and form a big, loose spike.

LADY DERBY

Bright rose-pink. Is rapidly becoming the leading pink pot hyacinth owing to its lovely shade of pink, its perfect spike on a strong stem and its splendid forcing qualities.

MYOSOTIS (Forget-Me-Not)

Beautiful blue, the only variety of this shade, large, strong spikes. Early flowering.

PERLE BRILLIANT

Light blue, tinged lavender. Produces an enormous spike of perfect shape and a big, smooth bulb. One of the best of the latest blue varieties.

Eight Best Named Single Hyacinths

We consider the Single Hyacinths more useful and valuable than the double varieties. They are better for forcing, more vigorous in growth, and produce stronger spikes of bloom; which are generally of better substance.

Price, 17 cents each, or the Full Set of Eight for \$1.30 postpaid.

INNOCENCE—Pure white, very large, compact spike, fine for early forcing.

GERTRUDE—Dark pink. The most popular pot and bedding Hyacinth, owing to its color and compact growth. Grown in larger quantities than any other kind.

GIGANTEA—Large, tall spike; large and very shapely, with drooping bells. Flowers shell-pink inside and deep pink outside, touched with violet. A superb sort.

GRANDE BLANCHE—Blush-white. Called also the white Regulus, being a sport of this old variety. Splendid bedder and early forcer.

KING OF THE BLUES—Rich dark blue, the finest of the deep

blues; extra large, well furnished broad spikes with large bells; erect and fine for pots.

KING OF THE BELGIANS—Bright scarlet. The most popular of the scarlets. Its upright well-filled spikes make it a good pot Hyacinth and as clear bright colors are mostly used for bedding, it is one of the most popular bedders. Immense stock.

LORD BALFOUR—Lilac-rose tinged dark violet; very early, enormous truss; the best in its color.

YELLOW HAMMER—Golden-yellow. The most popular of the yellows and a splendid forcer. The medium-sized bells form a very compact, ball-shaped truss, which makes one think of a hammer, hence its name.

Best Named Double Hyacinths

Price, 17 cents each; Full Set of Eight for \$1.30 postpaid.

CHESTNUT FLOWER—Extra large truss; bright rose, the flower resembles much that of the horse-chestnut, hence its name.

DELICATA—Clear porcelain-blue; extra large bells.

GRAND CONQUEROR—Clear bright carmine, extra large and handsome in every way. One of the best and most beautiful of all.

PRESIDENT ROOSEVELT—Tall stems and compact truss; beautifully shaped florets of lively pink.

ROYAL BOUQUET—Pure white, yellow center; very double.

SOVEREIGN—Golden-yellow; large, perfect bells.

SUNFLOWER—Pure rich, golden-yellow, very double and fine; one of the best double yellows.

OTHELLO—Fine compact spike of double bells. Very dark blue.

GIANT DARWIN TULIPS

Price, 7 cents each; 75 cents per dozen; \$5.00 per 100, Postpaid.

The Giant Darwin Tulips are late flowering Garden Tulips, and produce very large bowl-formed flowers of symmetrical shape and lasting wax-like substance on tall, strong stems, two to three feet high, and are exceedingly beautiful and effective grown in groups, in the shrubbery or herbaceous border, or in gardens with a background of greenery. They by far surpass in color and brilliancy anything before known in Tulips. They include almost every conceivable color and shade. Tulip bulbs should be set 3 inches deep, about 6 inches apart, in rows 8 to 10 inches apart.

Darwin Tulips

- ISIS**—Fiery crimson-scarlet with blue base, large and beautiful.
KATE GREENWAY—One of the largest and latest of all the Darwins. A grand big flower of white suffused with lilac; tall grower.
MAUVE CLAIR—Lilac mauve, very beautiful.
NAUTICAS—Purplish-rose, with dark violet base shaded bronze; very large flower on a tall stem.
ORION—Enormous flower, brilliant dark scarlet with blue centre.
PRIDE OF HAARLEM—Brilliant rosy-carmine with blue base. This is one of the oldest varieties, but hard to beat yet in color and size. Most flowers have more than six petals, which makes them look semi-double sometimes. It will remain a standard variety as long as Darwins are used.
QUEEN WILHELMINA—Very large flower. Tall stem. Flesh tinted rose. A very fine shade.
REV. EWBANK—Silvery heliotrope, darkening to lavender and violet at base.
TULIPE NOIR—Rich, glossy black-maroon, one of the best dark varieties. A popular novelty.
WHITE QUEEN—White. Can be called the only white Darwin. It opens rosy-white, but passes off pure white. One of the most popular varieties, which can be easily forced.
YELLOW DARWIN (New)—A beautiful and striking Tulip having a fine deep yellow flower; color, solid; very fine.
ZULU—Rich velvety purple-black, large egg-shaped flower.
BARONNE DE LA TONNAYE—A long and beautiful flower; clear carmine-rose at the midrib, toning off to soft pink on the edges; base white, tinged blue; height twenty-four inches. The leading bedder of the pink Darwins, keeping its brightness and standing upright to the last, no matter what kind of weather it is in.
BARTIGON—One of the most popular scarlets. The flower is large and carried on a tall, stiff stem.
CLARA BUTT—A large flower of remarkable beauty; coloring an exquisite shade of soft salmon-pink shaded rose; height 20 inches.
DREAM—A very large deep violet.
FARNCOMBE SANDERS—One of the largest and most beautiful of all Darwins; color brilliant, dark rosy red, with a clear white base.
GLOW—Bright crimson-scarlet. A variety of unsurpassed qualities for bedding, but too little known. The unusually tall and strong stem holds the big flower up perfectly. The flower lasts very long and the bright crimson color never fades. One of the brightest and best of the Darwins.

SUPERFINE, MIXED DARWIN TULIPS

Our supply of these comes from a specialist who grows over fifty sorts, most of which are represented in this mixture. Price, 65 cents per Dozen; \$5.00 per Hundred. (50 at 100 rate.)

Late or May-Flowering Cottage Garden Tulips

Coming into bloom two or three weeks later than the early flowering types, and extending the Tulip season over a period of four weeks or more. On account of their extreme hardiness, they are specially adapted for the permanent hardy flower border, where they should be liberally planted in clumps or masses. They may also be naturalized in grass, wild gardens, etc. For bedding they are superb, while as cut flowers, having long stems with flowers of great substance, they stand in perfect condition for a long time. In planting, the bulbs should be set a little deeper than early Tulips, a covering of four inches being about right.

Leading Varieties of Garden Tulips

Price, 7 cents each, 75 cents per dozen, \$6.00 per 100.

Our Collection Embraces all the Best Types of the Garden Tulip and Your Order Should Include at Least a Few of these Most Satisfactory Bulbs.

GESNERIANA SPATULATA—The grandest Tulip in existence. Tall growing and late blooming, with large, long leaves and tall, erect flower stalks, which support great waxen blooms, larger than teacups, of the most vivid, glossy coral red, each flower showing a deep blue-black blotch at the base that further enhances its beauty; in bloom a long time.

BREEDER TULIPS Distinct from all others

A distinct class of late flowering Tulips, allied to the Darwin and Cottage types, which is just now enjoying a revival of its old time prestige. The present popularity of "art tones" in all classes of flowers is mainly responsible for this quickened interest, the Breeders furnishing beautiful combinations of dull or soft tones in bluff, reds, browns, bronze or purple, in extremely large and well-shaped flowers; very long stems.

Not well adapted to forcing, but of superior value in every out-door usage.

Price, 10 Cents Each; Set of 6 for 55 Cents; \$1.00 per Dozen; \$7.00 per 100, Postpaid.

CROCUS FIRST GAY FLOWERS OF SPRING. LARGE FLOWERING VARIETIES.

Beautiful for Growing in Pots, Among the EARLIEST to Bloom on the Lawn in the Spring

DIRECTIONS FOR PLANTING—With a trowel or spade make a slanting opening about two inches deep, put in the bulbs, then with the foot press back the sod. This is an easy way to plant flowers that will be a sheet of bloom almost before the grass is green. They will care for themselves, blooming early amid the grass, and dying down to the bulb in ample time to be entirely out of the way of the lawn mower.

GIANT CROCUS IN COLORS, WHITE, BLUE, STRIPED, YELLOW OR ALL COLORS MIXED, ALL LARGE BULBS, 35 CENTS PER DOZEN; \$2.50 PER HUNDRED, POSTPAID.

GRAND DUCHESS OXALIS

There is no doubt about its being one of the most beautiful and taking winter flowers it is possible to have. Blossoms immense, borne well above the foliage; leaves large, clover-shaped and handsome. A most persistent bloomer, remaining constantly in flower from November to June. We have three colors to offer, bright pink, lavender and pure white.

Price, three for 10 cents, or 35 cents per dozen.

GRAND DUCHESS PINK—Enormous size, bright rose-pink. Finest recent novelty, and has been widely advertised.

GRAND DUTCHESS WHITE—Pure snow white. A grand contrast to the above.

LAVENDER—A fine large flower of a unique lavender color. Plant has a branching habit, not so compact as the white or pink.

BERMUDA BUTTERCUP OXALIS

A fine robust-growing, large flowering sort from Bermuda. Blooms in enormous panicles, each flower being as large as a silver half-dollar, and of a clear, bright yellow color. Easily grown in any window and a most satisfactory winter bloomer. Price, three for 10 cents; 35 cents per dozen.

WINTER-BLOOMING FREESIAS

WHITE FREESIAS (Purity)—A grand Freesia. The flowers are two inches long and about the same in width, and borne in clusters of six to ten. The body of the flower is pure white, with lower segments spotted lemon-yellow. The perfume is most delicate. Its cultivation is the simplest, requiring only to be potted in October, to be watered sparingly at first, placed in a sunny window and watered more as growth progresses. When out of flower, store in some place and report at proper season in fresh soil for another year's growth. Price, 6 for 25 cents; 45 cents per dozen.

NEW GIANT COLORED FREESIAS

A new class of large flowered, strong growing Freesias of various and distinct colors. The size, richness of color and beauty of these Freesias will be a revelation to all.

GENERAL PERSHING—Lavender-pink, yellow lip somewhat of a bronze cast, 8 cents each; 6 for 45 cents; 12 for 80 cents.

MIXED COLORS—6 for 40 cents; 12 for 75 cents.

**Feathered or Cockade HYACINTHS**

A real curiosity. First, a frizzled cockade-like spike an inch or two in length appears above the soil, and as it slowly rises on its long stalk it becomes five to six times as long as at first, developing into a long feathery plume, and lasting for weeks in that condition. One of those pretty, odd things that everybody likes. Perfectly hardy in the garden and fine for pots. Price, twelve for 50 cents.

GRAPE HYACINTHS

Very pretty, producing flowering spikes about six inches high, with little round bells so arranged as to resemble a bunch of grapes. Admirable for permanent beds and edgings and partially shaded situations, where they should be planted in groups of one dozen or more, where they will soon spread and being perfectly hardy will take care of themselves. They are very pretty when grown six in a pot in the house for winter flowering.

BLUE—Price, 40 cents per dozen; \$3.25 per 100.

WHITE—Price, 50 cents per dozen; \$4.00 per 100.

FRITILLARIA MELEAGRIS Guinea Hen Flower

Singular dwarf spring-flowering plants, bearing large, pendant, bell-shaped flowers of various colors, yellow, white, black, purple striped and splashed and checkered in the most curious way. They are invaluable for pot culture and exceedingly pretty when grown in large groups in the garden border or wild garden in a dry situation. Mixed varieties, 10 cents each; \$1.00 per dozen; \$8.00 per 100.

IXIAS

The graceful flower spikes of the Ixias remind one of Gladiolus, but the flowers are very distinct, being round and well opened. Their brilliant colors and vividly contrasting markings have made them quite popular. For pot culture, plant six in a five-inch pot, and treat as Hyacinths. For outdoor culture they should be planted in a somewhat sheltered situation and protected with leaves or straw.

MIXED SORTS—Many varieties of rich shades and colors. Price, three for 10 cents; 35 cents per dozen.

CHIONODOXA LUCILAE**Glory of the Snow**

The bulbs are perfectly hardy and make a fine display when planted in masses outdoors. For window culture they are fully as charming as are Freesias. They bloom very early, commonly by Christmas. Selected bulbs. Price, 50 cents per dozen.

In the open ground they are quite hardy, and especially fine planted in small beds or with Snowdrops, and like them, frequently blooming before the snow has gone. Price, 50 cents per dozen.

SCILLA ALBA

This has exactly the same flower as Scilla Sibirica, excepting that it is pure white. Price 50 cents per dozen.

Great Surplus Bulb Collections

SENT ONLY AFTER NOVEMBER 10th

In importing enormous quantities of bulbs from Holland, France, China, Japan, Bermuda, etc., we find it impossible to estimate what the exact demand will be, and to order just the right quantity of each variety, so that we usually have a surplus of many varieties including the very choicest and most expensive. As they cannot be kept over, we must close them out at the end of the season, and offer them to our patrons in collections, strictly of our own selection, at a big sacrifice rate.

These collections may be ordered at any time, but will not be sent until the rush trade is over, about November 10th.

Surplus Bulb Collection, No. 1 for One Dollar, Postpaid

Bessie Brown Color is snow-white, faintly flushed and tinged with pink, fine, strong grower.

Crusader (Hybrid Tea.) Color rich velvety crimson. Buds and blooms immense and of great substance, very full and double and the largest Rose of its color we have yet seen. A big strong grower soon produces a rugged bush loaded with the finest blooms that can be grown. Foliage heavy and free from disease. Hardy and a profuse bloomer.

Bud is long and shapely, opens perfectly to a full double flower, petals are of fine texture and substance. Blooms freely and is destined to take front rank among white Roses.

Red Letter Day An exceedingly beautiful Rose of infinite grace and charm. Its velvety, brilliant, glowing scarlet-crimson buds and fully opened cactus-like flowers never fade, as the reflex of the petals is satiny crimson-scarlet.

Red Radiance It is not crimson, but a bright, cheerful shade of red. In habit it is Radiance, pure and simple. It has the same characteristics of foliage and growth. Red Radiance will be a valuable acquisition.

Price, Plants from 2½-inch pots, 15 cents each, \$1.50 per dozen; Two-Year-Old Plants, from 4-inch pots, 45 cents each, \$4.50 per dozen.

Though called Perpetual, it must be understood that they are not such early and constant bloomers as the ever-blooming Rose. The Hybrid Perpetuals should not be ordered for house culture as they are not suitable for that purpose. These Roses are especially suited to plant in all the Northern states and territories, also in the colder parts of Virginia, West Virginia, Kentucky, Tennessee, North Carolina, Arkansas, Missouri, etc.

Anne de Diesbach (Glory of Paris)—Brilliant crimson shaded maroon; long, pointed buds, full and sweet.

Clarke A vigorous grower with handsome foliage, deep red on the young shoots, changing to deep green with age; a free perpetual bloomer; color brilliant crimson shaded scarlet; very large and of exquisite form, with large smooth petals slightly reflexed on the edges; does not burn in the sun; very fragrant.

Dorothy Perkins Extremely hardy. Flowers borne in clusters of from six to ten, very double, with prettily, crinkled petals. Pretty pointed buds, beautiful clear shell-pink in color, lasting a long time without fading; sweet-scented.

Color is a remarkable delicate shade of flesh-pink on the outer surface, deepening to rosy-flesh in the center. Flowers full and double, of delicate perfume; buds pointed.

Excelsa A distinct variety in form, color and habit. The color is an intense crimson-maroon, with tips of the petals tinged scarlet. Flowers are large and double, produced thirty to forty on a stem, and almost every eye on a shoot produces a cluster of bright blossoms.

Gardenia Bright yellow, cream color when open; very fragrant and free; early flowering. This is the hardy Marechal Niel; double yellow flowering.

Paul's Scarlet Climber Vivid scarlet, shaded crimson. Makes a brilliant display for a long period of time in the garden. A wonderful new climbing Rose. Received the gold medal and cup for the best new climber at the National Rose Society's exhibit.

Purity (Climbing White American Beauty.) (H. W.) Cross of Silver Moon and Kaiserin Augusta Victoria. A hardy disease resistant variety similar to Kaiserin, but of more vigorous growth and greater freedom of bloom. It is much more double than Silver Moon with but a single flower to a stem. Has excellent keeping qualities.

Rosarie (Pink Tausendschoen)—Similar to its parent Thousand Beauties, except color, which is a solid deep rose with much larger clusters and many blooms.

Tausendschoen A rapid growing, almost thornless, climber of exceptional value and attractiveness. Its innumerable flower clusters show every shade of pink, rose and crimson with white and yellow variegations.

White Dorothy Perkins A pure white sport of the well-known Dorothy Perkins, of same habit of growth and freedom of flowering; a splendid companion for the pink variety, as it flowers at the same time.

Clear, healthy foliage; splendid habit of growth; wonderfully free in flowering; indispensable as a pot plant; strongly recommended for winter flowering; unsurpassed as a bedder. Color an artistic shade of bright salmon-pink, slightly tinged white.

MRS. E. G. HILL—Single; florets two and one-half inches. The center of each petal is soft, light salmon, bordered with rosy-salmon and veined deep rose.

PRESIDENT ROOSEVELT—Pure snow-white, retaining its purity the entire season; perfectly formed round flowers, borne in enormous trusses held well above the beautiful foliage.

W. A. CHALFANT—Dazzling scarlet, florets slightly circular and slightly cupped, forming a magnificent truss, one of the best for bedding.

GRANVILLE—Florets perfectly round; bright pink flowers.

DOUBLE FLOWERING GERANIUMS

Price, 12 Cents Each; \$1.25 Per Dozen. (Plants from 2½-inch Pots.)

ALPHONSE RICARD—An excellent semi-double, a strong grower, dwarf and branching. Produces immense trusses of bloom; color bright orange-red.

BEAUTY POITEVINE—Semi-double. One of the very finest of the Bruant race. The color is a brilliant salmon, shading to apricot in the center; trusses colossal, florets two and one-fourth inches in diameter.

FRANCIS PERKINS—Color a bright pink. The blossoms are perfect in form and borne well and clear above the foliage.

HELEN MITCHELL—Semi-double, of the clearest possible shade of scarlet, is early in bloom, and flowers very freely, during the entire season. Grows compact, medium dwarf with lustrous green foliage and throws up gigantic flower-heads very freely. It is a common occurrence that a single four-inch pot plant shows four fully open gigantic flower-heads, several half open and more in bud. For earliness and constancy of bloom it surpasses all other Geraniums.

JEAN VIAUD—Of a beautiful clear rosy-pink color with distinct white blotch at the center. A rapid, vigorous grower, yet compact and shapely.

JEAN OBERLE—One of the most beautiful among that color known as the peach-pink; an excellent shade of hydrangea-pink shading tenderly to almost pure white at the outer edges of each petal; the florets are especially well formed, just semi-double enough to be pleasing; the trusses are actually immense often having over a hundred florets to the truss. Foliage distinct, and one of the type that stands the sun perfectly; color of foliage dark green, with a slight chocolate zone.

MRS. BUCKNER—A pure double white Geranium, as free-flowering as the single varieties; used for planting in beds for furnishing a supply of beautiful white flowers for vases, etc.

MISS FRANCES E. WILLARD—Is of vigorous growth; flower stalks very long and carried well above the foliage; color is a delicate blush, shaded with pearl-pink, a most charming piece of shading.

RED WING—This is a fine American Geranium just offered for sale. It has all the marks of a successful bedder or pot plant being a healthy robust grower, large-flowered and extraordinarily floriferous. Color deep cardinal red with a soft velvet luster.

S. A. NUTT—This is the darkest and richest double Geranium grown. It is very bright, dark, deep, rich velvety maroon; an excellent bedder and a perfect pot plant.

Ever-Blooming PELARGONIUMS

Better Known as Lady Washington Geranium
THE GRANDEST OF ALL FLOWERING PLANTS

Do not resemble the common Geranium in any particular, neither in foliage nor flower; more beautiful in every way. We here offer five distinct sorts, every one entirely different in color and every one a beauty. The Lady Washington Geraniums are the handsomest of all flowers—once seen, never forgotten.

PRICE, 25 CENTS EACH; 5 FOR \$1.00; 10 FOR \$1.90.
(Plants from 2½-inch pots.)

EASTER GREETING—This species is the earliest or all Pelargoniums with enormous florets and clusters having light green foliage and of dwarf robust growth. It blooms from March until fall. The florets are of a fiery amaranth-red with five regular shaped spots. The first and only kind to bloom as well bedded out as in pots and to do so all summer. The only kind that stands bedding out in groups. It rivals the Azalea in beauty as a pot plant for Easter, and when bedded out in summer will remain in bloom until time for frost in September.

GARDENER'S JOY—The ground color is apple-blossom pink, the two upper petals have blotches of carbon brown, the florets are three and one-half inches in diameter and are joined to enormous clusters which rise above the beautiful foliage and remind one of a Rhododendron cluster. It is of a half dwarf nature and very sturdy. On account of its rapid luxuriant growth it is a very profitable market variety.

GLORY—This splendid novelty is quite remountant, florets and clusters are very large; ground color blue, very much like the Cattleya Orchid. The upper petals contain two large purple magenta-red spots, distinctly veined. An exceedingly beautiful and entirely new color in Pelargoniums. This kind has a very robust growth.

LUCY BECKER—This grand novelty is a sport of Easter Greeting, and is like it in everything but color, which is a rosy-pink. It is if anything even more free in bloom.

FLOWERING BEGONIAS

This Beautiful Class of Plants is Deservedly Popular. They are Suitable for Pot Culture in the Window for Winter Blooming. 20 Cents Each, Six for \$1.00. EXCEPT WHERE NOTED.

ARGENTEA GUTTATA

This variety is an introduction of M. Lemoine and is a cross between Olbia and Alba Picta. This beautiful sort has the silvery blotches of Alba Picta, the grace and beauty of growth of Olbia. It has purple-bronze leaves, oblong in shape, with silvery, markings, and is in every way a most beautiful Begonia. Produces white flowers in bunches on ends of growth stems. Good for house culture.

Argentea Guttata

Alba Picta Long, pointed, slender leaves, thickly spotted with silvery-white. Foliage small and elegant.

Alba Perfecta Grandiflora We doubt if there is a white-flowered variety that equals it. The foliage resembles Rubra in shape, but it is lighter green, while the flower panicles are much handsomer. It is a pure white flowering Begonia of much merit.

Coralline Lucerne (The Wonderful Flowering Begonia.) This Begonia has simply taken everybody who has seen it by storm. It certainly is a wonder. The blooms last from a month to six weeks, and are borne in immense clusters almost hiding the plant. The color is bright coral red, changing to a delicate pink. It is past the power of speech to describe it. A wonder. Price, 25 cents each; 6 for \$1.25.

Two Extra Fine Varieties of REX BEGONIAS

Louise Closson

Louise Closson Purplish-tinted. One of the richest and most beautiful of the Rex family. The coloring is simply magnificent, center of leaf deep maroon with broad band of silvery rose, edged bronze, giving the whole leaf a purplish tint. The oddest color of all the Rex. Price, 25 cents each; 6 for \$1.25.

Speculata Quite a novelty in the Rex type. Leaves are in the form of a grape leaf. Color is a bright green, with a background of chocolate; veins of a light pea-green, the whole leaf spotted with silver. In bloom it is magnificent; the panicles composed of great number of individual pink blooms, are lifted high and spray-like quite clear of foliage. Price, 25 cents each; 6 for \$1.25.

Mrs. A. C. Townsend Belongs to the Ricinifolia family; leaves are a charming lustrous metallic-green color; an unusually profuse bloomer; flower of a delicate light pink, borne on long foot stalks.

Pink Rubra We doubt if there is a pink flowered variety that equals it. The foliage resembles Rubra in shape but is a lighter green, while the flower panicles are much handsomer. It is a pure pink flowering Begonia.

Thurstoni The under side of the leaves is a rich purplish-red, the veinings very prominent, while the face or upper side is a bronzy-green, shaded with crimson and olive, with a peculiar glossy-metallic lustre over all. Flowers rosy-white, in large clusters well above the foliage. The plant has a fine habit.

Chatellaine Supreme

Chatellaine Supreme This Begonia is undoubtedly the freest blooming variety known. Is of easy culture, low bushy habit and literally covered the entire year with a wealth of bright pink flowers with yellow stamens. It well merits the name of Ever-Blooming Begonia. Fine plants from 3 inch pots, 30 cents each; 6 for \$1.50.

Unnamed Rex Begonias

Nature has bestowed on Rex Begonias many of her choicest gifts, uniting the radiance and brilliancy of precious jewels, the shining luster of metals, with the beautiful colors and textures of the most costly fabrics. The leaves alone possess all these charms, while the dainty flowers add lightness and grace.

Rex Begonia

Give them a soil composed of rich loam, woods earth and sharp sand. They require a warm, moist atmosphere and a shady situation. Do not allow the sun to strike the leaves while wet, and do not over-water. Nothing can surpass them for the window or conservatory culture; they may be planted in a shady situation under trees or alongside of the house. Rex varieties make immense leaves. We can furnish REX BEGONIAS in choice sorts at 25 cents each, three for 65 cents; 12 for \$2.50.

Superb French Hydrangeas

FINEST VARIETIES

This species of Hydrangea is generally hardy in the South and throughout the Middle States with some protection during winter months, and here they will flower profusely from June to October. In our Northern States they will give better results when used as pot plants. The plants succeed rather better in a shady place than where it is too sunny, on which account they are valuable for house culture. The pot plants require a liberal supply of water during their season of growth and flowering.

POPULAR COLLECTION OF MINIATURE CACTI

No. 1. Echinocereus Riechenbachii Rosy Pink
No. 2. Echinocereus Rigidissimus Light Orange
No. 3. Escobaria Dasyantha Silver Pink
No. 4. Ariocarpus Fissuratus Light Pink
No. 5. Echinocactus Horizontalis Rosy Pink
No. 6. Escobaria Tuberculosa Pink

All bloom in the Spring, excepting No. 4 blooms in the Fall.

Culture of Cactus

The plants should always be kept more or less dry. However, it is well that the plants be given a light sprinkle once a week; they are able to go for a long period without any water at all and remain alive.

The Cacti may be planted either individually in pots or collectively in bowls.

When the plants are arranged in bowls without drains, the top level of the soil should be above the level of the bowl so that most of the water will run off. Enough will penetrate to moisten the soil. There should never be enough water at any time for the water to stand in the bottom of the bowls. This sours the

Cactus may be ordered by number.

Price, 50 cents each; 6 for \$2.75.

FERNS

Most Beautiful of All Decorative Plants FOR THE HOUSE AND CONSERVATORY

No plants are easier to grow or more ornamental for house or conservatory culture than these grand new Ferns. They require very little care or attention, and produce a finer effect than any other plants you can get for many times their cost. The varieties listed herewith include the newest and most beautiful sorts to date. The ordinary temperature of the living room suits them nicely, and their new growths will soon surprise you with their graceful beauty.

Innisfallen.

New Fern INNISFALLEN

This handsome new variety originated with us. It is of the Elegantissima type, a strong and rapid grower, handsome green foliage, and has a stiff mid-rib which makes the fronds stand up better than most varieties of ferns. It has a distinctness of its own and is most desirable in all respects. Price, young plants, 25 cents each; large plants, 50 cents each.

Roosevelt Fern.

ANY OF THE FOLLOWING FERNS IN NICE YOUNG PLANTS, 20 CENTS EACH; 4 FOR 75 CENTS; STRONG FOUR-INCH POT PLANTS, 50 CENTS EACH; 4 FOR \$1.85

THE "ROOSEVELT FERN"

(*Nephrolepis Roosevelt*)—In general characteristics it resembles the Boston Fern, but with two points of great excellence over that variety. First it produces many more fronds, making it a bushier and handsomer plant; then the pinnae are undulated, giving it a pronounced wavy effect seen in no other Fern. It is highly recommended.

THE POPULAR BOSTON SWORD FERN

(*Nephrolepis Exaltata Bostoniensis*)—In the vicinity of Boston no other plant is used so extensively as this graceful *Nephrolepis*, which differs from the ordinary Fern in having much longer fronds, which frequently attain a length of four feet. These fronds arch and droop over very gracefully, on account of which it is frequently called the Fountain Fern.

OSTRICH PLUME FERN

(*Nephrolepis Whitmanii*)—An improvement on the *Nephrolepis Elegan-tissima*, with still more gracefully divided pinnae, giving the whole plant an airy lace-like appearance; makes beautiful symmetrical plants even in small sizes and large specimen plants are beautiful beyond description.

NEPHROLEPIS SPARROWII

We take pleasure in offering to our customers this valuable variety, a true sport of the Neph. Superbissima (or fluffy Ruffles) Fern. It has the dark green foliage of its parent, which, with its beautiful crested fronds, makes it a most unique, distinct and desirable Fern. One of the most distinguishable features of this Fern is its robustness, which makes it a very rapid and easy grower, a Fern the amateur can grow with success. We recommend this variety most highly.

We have some extra fine large plants of Boston and Roosevelt Ferns, both of which are fully described on this page. These should, for best results, be shipped by express, but can be sent by mail if necessary.

PRICE, \$1.00 each, Two for \$1.75; by express, not prepaid. If wanted by mail, add 15 cents each.

Dwarf Growing FERNS for Dishes

We have grown a large quantity of small Ferns suitable for Fern dishes. The use of ferneries as ornaments for the dinner table is now very general. Nothing makes so fine an ornament, or is so well adapted for the purpose.

PRICE, 12 CENTS EACH; SIX FOR 60 CENTS; \$1.10 PER DOZEN.

Cryptomium Falcatum (Holly Fern.) We consider this one of the finest Ferns in cultivation to grow into specimen plants, and while it is coarser than the *Tremula* Fern, it is very graceful and is becoming very popular. The leaf is a rich, glossy green, and each leaflet is about the shape and size of a Rose leaf. The fronds are fine for cutting on account of their lasting quality.

Pteris Wimsetti Green leaves, with the ends very peculiarly twisted. It is one of the best varieties for Fern dishes, being a short, compact grower. Will stand much rough treatment.

Adiantum Cuneatum (Maiden Hair Fern.) A very beautiful and graceful Fern, its delicate fronds being much used for cut flower work.

Pteris Cretica Alba Lineata A very handsome Fern, nicely variegated, grows very rapidly into handsome plants.

Pteris Wilsoni An ornamental Fern of unusual merit. One of the most dwarf of this class, having deep green foliage, leaves heavily crested, giving it the appearance of a tassel. A fine addition to the ornamental varieties.

The Wonderful NEW VARIEGATED YUCCA

This plant is a strong and vigorous grower, free from all blights and insects, absolutely hardy, surviving our northern winters in the open field without any protection whatever. Will also survive hot-dry weather.

The center of the long sharp-pointed leaves is a deep rich green while the margins are a creamy yellow. In early fall the green takes on a steel blue cast. It is this stage that brings out the real winter beauty, especially with a background of snow. The only dull period in its life is during March and April after which it starts anew and in late June throws up beautiful large-drooping-waxen-like white blooms on a stalk three to four feet high, exactly as the regular Yucca.

EXCELLENT FOR GROWING AS A SINGLE PLANT OR IN CLUMPS.

HARDY OUTDOOR FERNS

Just the thing for that shady place around your house where most flowers will not do so well. Plant these Ferns about 12 inches apart, the crown level with surface of ground, and give them a thorough soaking to settle the soil around the roots and a mulch to preserve moisture. The planting season runs from October 1st to June 1st. Fall planting gives the soil a chance to settle solid around the roots which will insure stronger growth the first year. Most ferns do best in a light soil containing much vegetable matter, and it is always best to work a considerable amount of leaf mould into the soil of a fern bed. While few ferns grow well in very dry soil, the common notion that they require very wet or almost swampy conditions is not well founded. Most of them, even those that grow naturally in very wet places, do nicely under ordinary garden treatment, in the matter of moisture. While the native ferns are, of course, perfectly hardy, most of them are better off with a light covering of leaves in winter. In their natural habitat they are usually well covered with leaves and snow throughout the winter.

We offer only the four most popular varieties. One each of the four, postpaid, for \$1.25.

Hardy Maidenhair Fern (*Adiantum Pedatum*.) Perhaps the most graceful of all; attains a height of 12 to 18 inches when grown in rich, moist, well drained shady locations. **Price, 35 cents each; 6 for \$1.75.**

Ostrich Fern (*Onoclea Struthiopteris*.) Growing in a crown, fronds 2 to 4 feet by 6 to 10 inches wide; a very erect handsome species, graceful as a palm. Its vase like masses of foliage are dark green and is one of the tallest of our ferns and should be planted well back. **Price, 25 cents each; 6 for \$1.25.**

Christmas Fern This fern, when grown under ideal conditions, attains a height of three feet, its peculiar grace and beauty makes it desirable in all fern gardens. **Price, 35 cents each; 6 for \$1.75.**

Interrupted Fern (*Osmunda Claytoniana*.) A large fern growing in a crown 2 to 3 feet high, 8 inches broad, clothed with rusty wool when young, very beautiful, cinnamon colored leaves. Does well under cultivation in high, shady or open places. **Price, 40 cents each; 6 for \$2.00.**
